Dear Minister Lemieux,

Re: Beyond Kyoto – Transportation Sector

I am writing on behalf of Bike to the Future to express our appreciation for the active transportation initiatives announced in the recently released provincial policy document, Beyond Kyoto. We are especially pleased to see that there are plans for a provincial active transportation advisory group, continued support for active transportation pathways, support for other cycling infrastructure, and for educational initiatives, among others. We feel that these plans, when followed through, will provide an excellent basis for increasing and encouraging active transportation in Manitoba.

Yours truly,

Jeremy Hull
